

Ammanuel Church COVID 19 Updates Oct 21st, 2022

Health Department

The updated recommendations **do not** mean that COVID-19 is over. COVID-19 is still making hundreds of Philadelphians sick every day, and people all across the country are still dying from this disease. There are things you can do to protect yourself, your loved ones, and your community from severe COVID-19.

Vaccines

The most important thing that you can do to protect yourself from severe COVID-19, hospitalization and death is to be **up-to-date on your COVID-19 vaccines**. You can **find the closest vaccine location on the Health Department's website**.

Masks

The Health Department strongly recommends that Philadelphians wear a face mask if they are around others in indoor public spaces. **N-95 and KN-95 masks provide the best protection.**

Wearing a mask is especially important for people who are **at high risk for severe COVID-19.**

High

In **Philadelphia County, Pennsylvania**, community level is **High**.

- Wear a mask indoors in public
- Stay up to date with COVID-19 vaccines
- Get tested if you have symptoms
- Additional precautions may be needed for people at high risk for severe illness

Philadelphia COVID and Vaccine Status shown the two graphs below

USA COVID 19 Status

Monkeypox

[2022 U.S. Map & Case Count](#) | [Monkeypox](#) | [Poxvirus](#) | [CDC](#)

USA	27,835
New Jersey	741
New York	4,067
PA	821
Delaware	41

A Monkeypox is the National Health Emergency
